4K Quarter Circle Ranch | Parachute, Colorado

# INTRODUCTION

If you are looking for a ranch that has it all, gorgeous home, superior outbuildings, big game hunting, direct BLM access, water rights, year-round access, a large geodesic dome greenhouse, and passive income then 4K Quarter Circle Ranch is your ranch.

At 5,500 ft elevation, this is a ranch that allows for maximum usage. Whether it is growing your own vegetables in the grow dome that interests you, or watching the herds of elk and mule deer from your patio, you will find the 4K Quarter Circle Ranch to be a great home or home away from home. There is an immaculate 3,100 SF insulated workshop garage building with office space, storage loft and several doors up to 14 ft, and will hold multiple vehicles including your RV. A mile below the ranch is the Colorado River coursing it's way from the Colorado high-country toward Grand Junction, Colorado on the way to the Grand Canyon and beyond.

The home is exquisitely done with high end finishes and utilizes barn-style old growth fir timber framing by San Juan Timberwrights, Inc. allowing for a very open feel and, best of all, the ease to change the floor plan. There is a spacious loft area and tremendous storage space in the garage. The owners have created great outdoor living space as they love the wildlife viewing and the pleasant evenings.

If you are a hunter, the ranch is located in over-the-counter Unit #42. There is a very healthy herd of elk that visit the ranch all four seasons of the year. Big mule deer are frequently spotted next to the home. For more adventurous hunters, the ranch also has direct access into thousands of acres of BLM land.

Deeded water rights allow for enough irrigation to grow your own alfalfa and grass hay crop using pivot, side-roll, and big gun systems. The owner has also compiled an impressive bundle of gas leases that will convey to the Buyer and provide varying amounts of passive income depending on the price of oil and gas commodities.

The views are stunning to say the least. The ranch overlooks the Colorado River Valley on a flat mesa easily accessed from I-70. The Battlements are to the southeast, forested BLM land to the southwest, and the striking Roan Plateau rises behind the ranch providing a very special backdrop that completes the 360-degree display of quintessential western Colorado landscape. Due to the huge scale of the scenery, the 4K Quarter Circle Ranch is one that even looks better in person.

## LOCATION

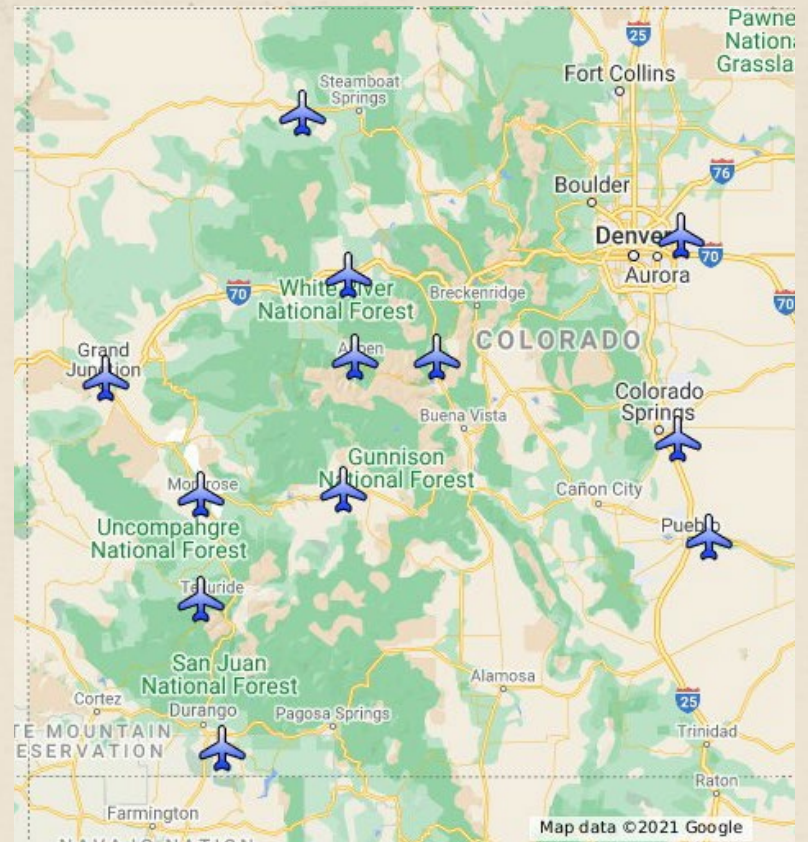

Sitting high up on a mesa overlooking the Colorado River Valley near Parachute, Colorado the 4K Quarter Circle Ranch is located 50 minutes from Grand Junction, just over 3 hours from Denver via I-70. Vail and Aspen Ski areas are both less than two hours away. A whole host of world-class hunting, fishing and skiing options are all nearby. The ranch feels very private, but yet quick interstate travel is only minutes away. There are multiple nearby airport options as well. The 5,500 ft elevation with direct access to higher elevation BLM land make this a ranch that can be enjoyed year-round.

# GETTING THERE

The ranch can be accessed via commercial air service from two nearby airports: Grand Junction Regional Airport and Eagle County Regional Airport, both only 50 minutes from the ranch. # ACREAGE

The Ranch is comprised of 333± acres of mixed topography. A part of the ranch is dedicated to producing alfalfa and grass hayfields. A percentage is forested with primarily juniper trees. Two seasonal creeks, Poodle Creek and Pete and Bill Creek, are on the ranch. Pete and Bill Creek is located in a pretty little draw that runs up to the BLM land. This is a great place to ride horses or explore on foot. The remnants of a couple of the original historic homestead buildings are tucked away in another treed portion of the ranch.

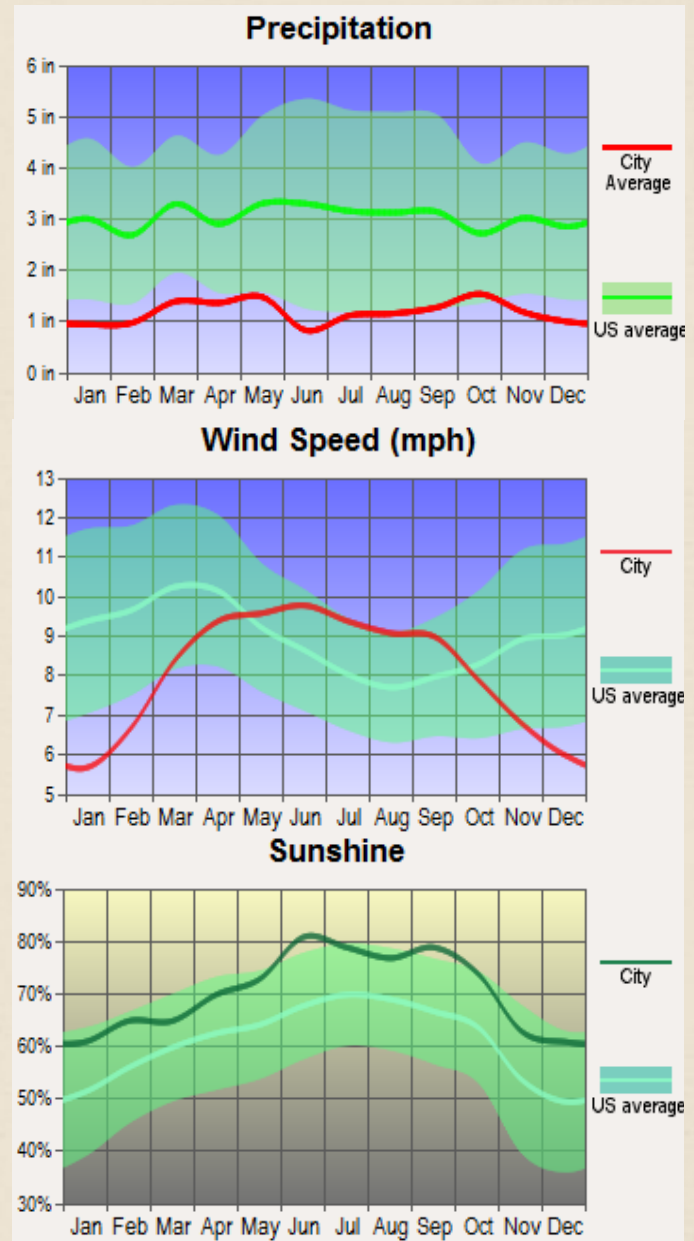

## SCENIC VISTAS

The ranch location allows for spectacular 360-degree views. The morning and evening light make each day a new visual experience. At one time or another every color in the rainbow radiates from the various hillsides. The Battlements rise up with dramatic rock formations. The hills to the south and the Collbran Gap are forested green while the visually impressive shale of the Roan Plateau is a chalky white with bands of color that catch the sunlight in beautifully unusual ways.

# CLIMATE

The 5,500 ft elevation dictates the climate with warmer temperatures year round and less precipitation than a high mountain ranch. That also means less cold and snow in the winter and better year-round access.

A great loft area, 3 bedrooms, 3 baths, and an open floorplan with a lot of windows and glass doors bring the beautiful outside environment into the house. Because the workshop serves as vehicle storage the large garage area in the house is used for storage, but due to the flexibility of the frame construction it could be reconfigured to add interior spaces expansion of existing rooms or for other uses. # MINERALS & OTHER INCOMES

The Seller has put together a portfolio of approximately 60 shares of oil and gas leases that provide annual income, the amount based on market prices. This portfolio is included in the offering price and will transfer with the ranch. Of course, all mineral offerings need proper review by the Buyer. There is additional income from hay production making this ranch not only a great place to live but income producing as well.

## WATER SOURCES | WATER RIGHTS

The ranch includes deeded water rights that allow the owner to grow a hay crop annually.
