

Oak Grove Mining

Lignite mining is a very large revenue source in Limestone County. Oak Grove Mining is the Lignite Mining Company located at 4731 E. Hwy 7, Kosse, Texas 76653. Their processing plant is six miles south of our 300.18 acres. Oak Grove Mining signed a twelve month contract with us in 2013 to core the 300.18 acres, but never got to it.

Over the years, Oak Grove has purchased more and more property around us. I know that it would yield a multi-million dollars deal if they were to mine our property. If the property is still used as ranching and/or hunting it would be appealing. The attached map shows where the Oak Grove owned properties listed below are located.
